

INOX-STAR®-Eyebolt M12

Artikel-Nr: 7993835

- Body and bolt made out of Duplex Steel 1.4462 (high resistancy in sea water and in environment with a high concentration of chlorine ions).
- Pentagonal shape for a clear determination to common lifting points (i.e. eye bolts).
- Lifting points pivots 360° for an easy adjustment in load direction.
- Clear marking of the minimum WLL for all loading directions. Higher WLL possible when location and installation is optimised (compare WLL chart).
- Non removable special bolt (this reduces the risk of non standard bolts).
- Clear marking at the bolt head: RUD, thread size, batch-no., class of strength.
- Available as: Standard Metric Thread (DIN EN 13)
- Variable thread lengths are available for usage at thread holes and at through hole fixtures.
- Quick and easy installation with just one bolt connection.
- Hand tightening with appropriate wrench is sufficient for a singular lift.
- For permanent installation and recurrend lifts we can offer a special socket wrench to apply the requested torque (fits to a common Inch torque wrench).

Other important RUD specific information and specialities to our RUD lifting points can be found in the specific user instruction.
