

Curtain Tensioners

Improved curtain tensioning
for better security

A 9 toothed ratchet wheel in forged steel

Quick and optimised tightening

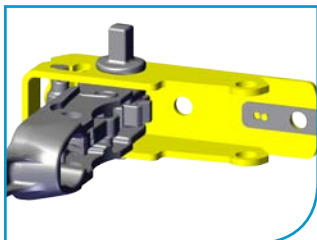

The 9 teeth ratchet wheel in forged steel allows precise tightening or quick 2 by 2 tightening.

A large handle

Ergonomic and robust

A large handle gives an excellent feel. The handle is also fitted with a push button for an easy release.

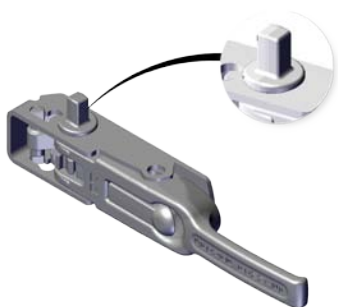

Two holes on the same mounting plate

Compact and easy to fit

Two holes for M10 screws on the same mounting plate make fitting simple. The rectilinear superior face makes it possible to place directly under the rear pillar.

Curtain Tensioners

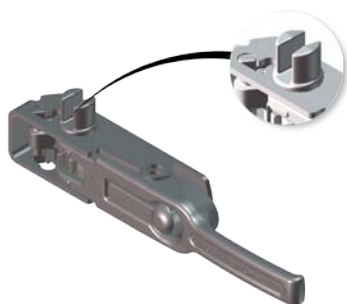

THE RANGE
