S.ROLL

ENERGY ABSORBING ROLLER BUFFERS

For the rear protection of industrial vehicles of all types, this energy absorbing buffer eliminates any risk of tearing during loading and unloading. Fully assembled and ready to install, this equipment requires no pre-assembly and thus saves time. The S.ROLL is economical to use because it does not have any rubber wearing parts to change regularly.

PATENTED

All steel, spring shock absorbers

ROBUSTNESS AND LONGEVITY

The shock absorbing function of the springs, as well as the choice of steel for all the S.ROLL buffer components ensures unparalleled longevity. Tested and approved over 60,000 cycles.

Ready to install system

FAST AND EASY ASSEMBLY

The S.ROLL buffers come fully assembled, ready for either welded or bolted installation. No pre-assembly is required.

Fully enclosed system

SAFETY OVER TIME

All the components of the S.ROLL buffers are kept inside the main body of the main casing made of high resistance steel, making any loss on the road impossible.

A RANGE FULLY ADAPTED TO YOUR NEEDS

S.ROLL-H1E

1 slim roller horizontal

1 roller hot dip galvanised buffer, galvanised pin.

S.ROLL-H1

1 roller horizontal

1 roller hot dip galvanised buffer, galvanised pin.

S.ROLL-H2

2 roller horizontal

2-roller hot dip galvanised buffer, galvanised pin.

S.ROLL-S2

2 roller superimposed horizontal

2-roller hot dip galvanised buffer, galvanised pin.

S.ROLL-V1

1 roller vertical

1 roller buffer hot dip galvanised, galvanised pin.

S.ROLL-V2

2 roller vertical

2-roller hot dip galvanised buffer, galvanised pin.

S.ROLL-C1

1 roll Compact horizontal

1 roller buffer in hot dip galvanised, galvanised pin.
