

## VIP-Length adjustment VLE-28

Artikel-Nr: 7900772

New developed length adjustment for 28mm VIP-chain. For an exact length adjustment on a chain sling. Due to running on a flat wrench, adjustment to the mm can be performed. Under load, it is only possible to elongate the chain strand. VIP-MAXI-Length adjustment is marked by the RUD-ID-TAG® (RFID chip) and with the clear identification number distinguished. Shortening with claw VV 28. Clevis connection on both sides. Retaining and load pins are preassembled.
